Reasons for Allowance

Art Unit: 1772

The following is an examiner's statement of reasons for allowance: Applicant's arguments filed 2/9/2004 have been considered and are persuasive. The closest prior art, Primeau discloses a molded flexible mat having a raised peripheral lip provided on side edges of the molded mat (figure 1 sides of the mat), a first area contained within the peripheral lip, the first area having a recessed bottom surface and a plurality of raised protrusion extending from the bottom surface thereby providing a texturized surface (figure 1), at least one third area having a substantially smooth bottom surface (figure 1 number 22), wherein at least one third area provided within the first area of the mat is adjacent to the texturized surface pattern (figure 1). Primeau fails to teach or suggest a wear plate fixed upon the smooth bottom surface of at least one third area of the molded mat.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
